

RESIDENTIAL

PRODUCT APPLICATION GUIDE

RESIDENTIAL

To protect the most valuable investments in your life, your home and your family, improving indoor air quality is key.

GOOD INDOOR AIR QUALITY IS IMPORTANT BECAUSE...

- 90% of our time is spent indoors
- Poor IAQ can lead to health problems, mold growth and building deterioration
- Long term exposure may lead to serious health issues such as respiratory disease, heart disease and cancer

BATHROOM

Exhausting humidity and Volatile Organic Compounds (VOCs) present in bathrooms is important for the overall indoor air quality of your home.

MODEL PC

Premium CHOICE Bathroom Fan

MODEL TD

TD-Mixvent In-line fan

RANGE HOOD EXHAUST

Cooking and cleaning in kitchens creates a build-up of particulate matter (PM2.5), VOCs and humidity. Exhaust these quietly and efficiently with a TD-Mixvent, SWF or PV-Powervent inline fan to keep noise minimal.

PV-Powervent

Inline Centrifugal Duct Fan

MODEL TD

TD-Mixvent In-line fan

MODEL SWF

Sidewall Fan

DRYER EXHAUST

Long or complicated duct runs require a ventilation fan that will overcome high static pressure.

PV-Powervent

Inline Centrifugal Duct Fan

PV-DEDPV

Dryer Exhaust Duct Power Ventilator

GARAGE VENTILATION

Keep hazardous fumes from automotive exhaust, paints, fertilizers, and pesticides from entering your home by properly ventilating your garage.

MODEL PC

Premium CHOICE Bathroom Fan

MODEL SWF

Sidewall Fan

OUTSIDE AIR SOLUTION

Maintaining indoor air quality is important for the health of both your home and inhabitants. S&P USA provides good, better and best Outside Air Solutions.

MDX-ES24VK

Motorized Damper and EnviroSense Control

MODEL PC

Premium CHOICE Bathroom Fan

MODEL RF

reFresh All-in-One Unit

MODEL TD

TD-Mixvent In-line fan

MODEL TR

Total Recovery Series

RADON

Specifically designed for radon mitigation.

MODEL PRF

Radon Mitigation Fan

Outside Air Solution

MDX-ES24VK or TD or ReFresh or TR or PC

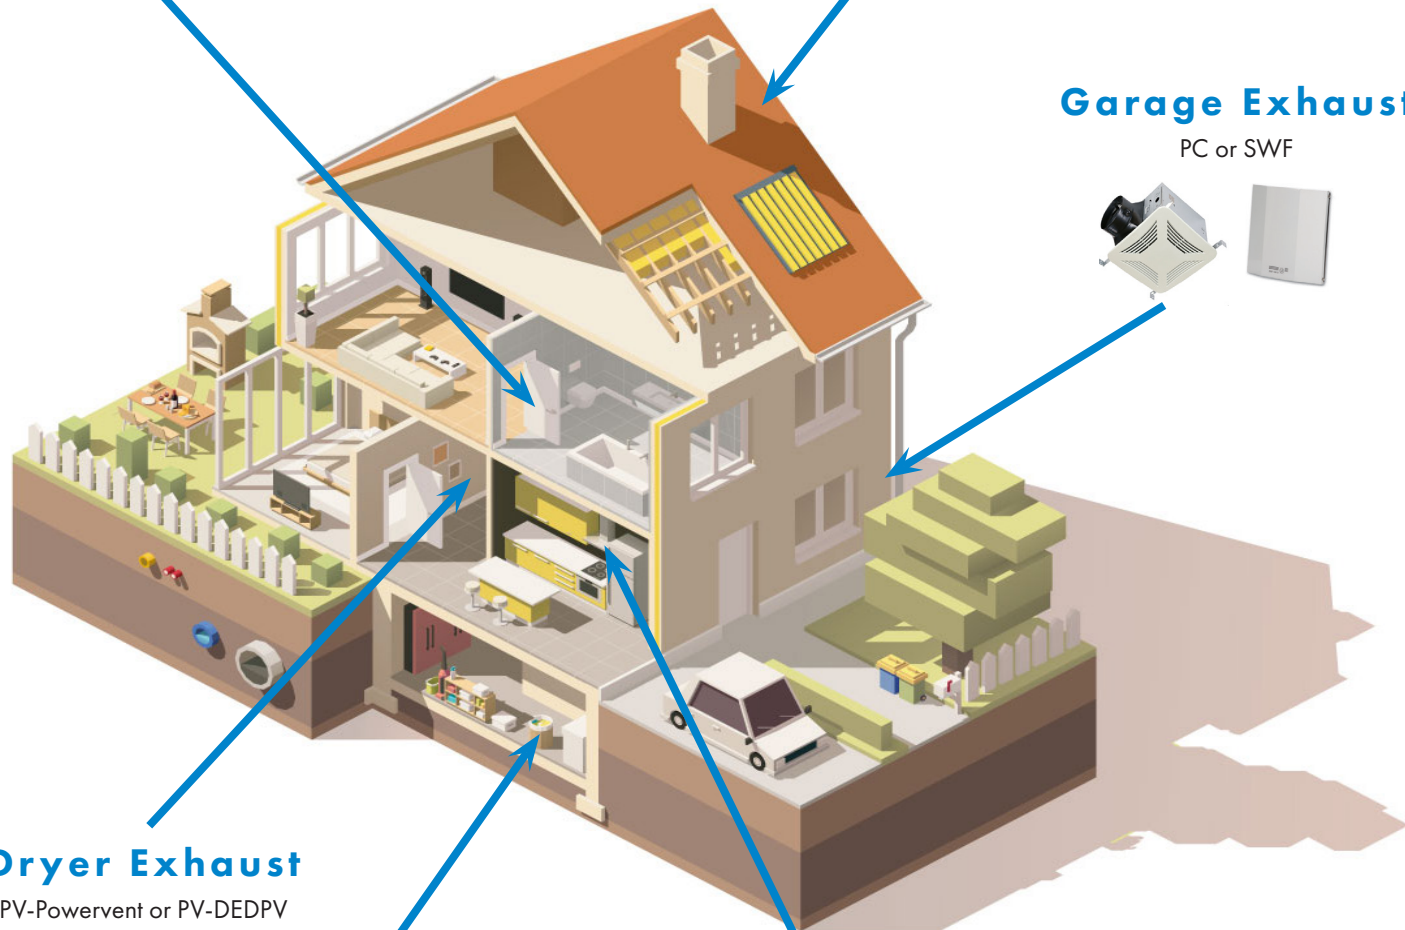

Bathroom

PCXP or TD

Garage Exhaust

PC or SWF

Dryer Exhaust

PV-Powervent or PV-DEDPV

Radon Mitigation

PRF

Range Hood Exhaust

TD or PV or SWF
