

ADVANCING VENTILATION®

THE FAN FLYER

OCTOBER 2023

FALL FAN BOOTCAMP

This month customers and partners from across the country (and S&P Canada) joined us for Fan Bootcamp in Jacksonville! During this one-day training, attendees learned about our product line and the resources we offer to help them in the field.

Want to attend our next Fan Bootcamp on February 22, 2024? Subscribe to our emails to be notified when registration opens: https://hubs.li/Q026q_2h0

CONGRATULATIONS, ASHLEY!

Join us in congratulating Ashley Done on her promotion to Inside Sales Manager! Prior to joining S&P USA, Ashley spent most of her career in Graphic Design, which brought her to our Marketing Department in 2021. In early 2022, Ashley transitioned into our Support Services team as a Sales Support Specialist. In this role, Ashley supported our customers and sales team with everything from quoting and building the best fan for their needs to keeping an eye on orders already in-house. In her new role as Inside Sales Manager, Ashley will be a point person for sales at our Jacksonville headquarters. She will continue to provide exceptional service to our clients in any way she can.

HAPPY IAQ MONTH!

This October we celebrated National Indoor Air Quality (IAQ) month! S&P USA is proud to offer Outside Air Solutions that allow you to meet codes and improve IAQ. Learn more and download an Outside Air Solutions brochure today: <https://www.solerpalau-usa.com/resources/oas.html>
