

## FAN BOOTCAMP

This month S&P USA hosted another successful Fan Bootcamp at our headquarters in Jacksonville, FL! Fan Bootcamp is a one-day training on all things fans. During Fan Bootcamp you'll learn more about product applications, code solutions, and free resources available to you as a valued S&P partner.

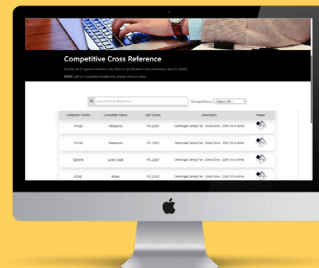

Our next Fan Bootcamp is on October 19! Be on the lookout for registration opening soon!

## HAVE A PROJECT? WE HAVE A FAN FOR THAT.

S&P USA's Competitive Cross Reference tool lets you quickly find the S&P equivalent to many of our competitor's products. Simply type our competitor's model number into the search bar, and our model will appear below. Try it today:

## REFRESH YOUR SPRING

Spring has officially begun! Prevent seasonal allergens, like pollen, from entering buildings by installing a reFresh Filtered Supply Fan. When paired with optional MERV 8 or MERV 13 filters, reFresh keeps inside air clean and allergen-free.

Learn more about reFresh on our website: <https://www.solerpalau-usa.com/products/refresh/refresh.html>

## HAPPY EASTER!

In observance of Easter, our offices will close at 2:00 PM EDT on Thursday, April 6, and reopen for normal business hours on Monday, April 10.
