

THE FAN FLYER

SEPTEMBER 2022

NEW RESOURCE

Need to know an S&P model equivalent for a project?
We have a FAN for that!

S&P USA's new Competitive Cross Reference tool lets you quickly find the S&P equivalent to many of our competitor's products. Simply type our competitor's model number into the search bar, and our model will appear below.
Just another way S&P USA makes it easy to do business!

Try it today: <https://solerpalau-usa.com/resources/cross-reference.html>

NEW PRODUCT ALERT!

S&P USA has added an EC motor to our popular TR90 Total Recovery Energy Recovery Ventilator! TRe90 & TRe90H's utilization of an EC motor makes them more efficient and ideal for residential and light-commercial applications. Learn more on our [website](#).

HEAD BACK TO SCHOOL

At S&P USA, we believe it's critical to provide our customers with all the information needed to promote and sell the S&P product line. This is why we've developed S&P University.

S&P University offers 10 to 30-minute courses on topics ranging from product features to Optimizer Selections.
