ADVANCING VENTILATION

## FEATURES

- Attractive spun aluminum exterior

- Belt drives permit easy performance adjustments when needed
- STXB-HT utilizes an aluminum wheel, and the STXB-HT2 utilizes a steel wheel
- Electrical connection located on shroud side with weather proof junction box
- AMCA Air and Sound Licensed
- NFPA - suitable for National Fire Protection Association installations
- cULus 705 and 793
- STXB-HT2: UL/cUL 793 for Smoke Control Systems $\left[500^{\circ} \mathrm{F}\left(260^{\circ} \mathrm{C}\right)\right.$ for 4 hours and $1,000^{\circ} \mathrm{F}\left(538^{\circ} \mathrm{C}\right)$ for 15 minutes]
- STXB-HT: UL/cUL 793 for Smoke Control Systems [ $500^{\circ} \mathrm{F}\left(260^{\circ} \mathrm{C}\right)$ for 4 hours]
- Dual groove pulleys and belts sized for over $150 \%$ of motor horsepower
- STXB-HT2 Steel Wheel - Fully welded, reinforcing bands, epoxy coated standard; Larger cooling vanes for additional airflow through the motor compartment
- Breathing tube located at optimal location for airflow over the motor
- Increased shafts and bearings to accommodate the heavier wheel and high temperature operation
- Bearings are sized to L 10 life in excess of 100,000 hours
- Heavier gauge steel components to compensate for additional weight and temperature requirements

DIMENSIONS

| Size | A | B | C | D | Roof Opening | Curb (O.D.) | Average Ship Wt. Lbs. STXBHT2 | Average Ship Wt. Lbs. STXB-HT |
